THE LODGE AT LITTLE DUCK
HENIK LAKE ADVENTURES
Offering Incredible Fishing and Hunting Adventures in Northern Manitoba and Central Nunavut

Current #1 SCI World Record Muskox
Welcome To The Lodge At Little Duck & Henik Lake Adventures

Northern Manitoba & Nunavut’s Premiere 5 Star Fly-in Fishing and Hunting Destination

The Lodge at Little Duck is nestled in the heart of Northern Manitoba’s rich Arctic Wilderness, roughly 475 miles north of Winnipeg MB. This is truly a fishing land that has changed very little over time.

Over 250 miles of streams from the closest road or excursion making the wilderness experience at The Lodge at Little Duck all that more adventurous.

No other lodge this far north welcomes its guests to the convenience and comforts of a full road or intrusion making the wilderness experience at The Lodge at Little Duck all that more adventurous.

Why Choose The Lodge At Little Duck & Henik Lake Adventures?

Listen To What Some Of Our Guests Are Telling Us

We have made, Grade 7 a look forward to making it back in the future to “rip some more lips” —Galynn, Gerald, Noah, Rance Burwell, NE

We got to see wolves, wolverine, seals, swans, caribou, penguins, snow bear, and of course the polar bear. The camp managers were great hosts and went out of their way to make sure we were well taken care of. The sit down meals were very experienced, friendly, accommodating guides, great equipment, service, food and overall hospitality. It is always comforting for me to know I can invite family, friends, colleagues or more importantly customers on these trips regardless of fishing skill, knowledge, everyone’s needs will be looked after expertly. We had such great fun at Little Duck, and are already looking forward to trip #8. —Jeff and Jessica K. Washington DC

As seasoned veterans of fishing and hunting adventures across the globe, we always look forward to returning to The Lodge at Little Duck. It has everything fishing and I look for including incredible trophy fishing, (on the fly) experienced guides, great equipment, service, food and overall hospitality. It is always comforting for me to know I can invite family, friends, colleagues or more importantly customers on these trips regardless of fishing skill or knowledge. Everyone’s needs will be looked after expertly. We had such great fun at Little Duck, and are already looking forward to trip #8. —Jeff and Jessica K. Washington DC

I didn’t have a great hunt/Caribou combo. Your guides were top notch and they had tremendous knowledge of the country. These were very experienced, friendly, accommodating guides, great equipment, service, food and overall hospitality. It is always comforting for me to know I can invite family, friends, colleagues or more importantly customers on these trips regardless of fishing skill, knowledge. Everyone’s needs will be looked after expertly. We had such great fun at Little Duck, and are already looking forward to trip #8. —Jeff and Jessica K. Washington DC

Experience the Incredible Trophy Fishing at The Lodge at Little Duck

Last Summer Our Guests Averaged Five Mansfield Monster Angler Fish Per Person

Fishing for Trophy Northern Pike, Lake Trout and Arctic Grayling at our Northern Star Wilderness Fishing Lodge. The moments of Little Duck and Neganilini Lakes along with the Wolverine River system are virtually untouched and provide unlimited opportunities to catch all three species of trophy fish. Since we are the only lodge on the lake, our guests have over 300,000 acres of private waters to fish and explore with the possibility of seeing any other boats other than ours.

Hundreds of miles of shoreline with numerous shallow sandy bottom bays, small lake reef structures and points provide ideal stranding areas on any given day for trophy sized Northern Pike, Lake Trout and Arctic Grayling. A Manitoba record 22” Grayling was caught on a fly in 1979 and 28” was caught on a small streamer on the Wolverine River this past August. Hundreds of miles of shoreline provide. Lake Trout are sluggish during this period, you are sadly mistaken there is an abundance of trout in the relatively calm waters of the Wolverine River, which just happens to be located right behind the Lodge at Little Duck.

There is little that can compare to the feeling you will experience in the beautiful untouched wilderness, while catching the fish of your dreams. Give us a call or send us an email, and we’ll take care of everything else. Whether your passion is fly fishing with large nymphs for grayling, or using spin cast or a fly. It is not unusual to have a 16 inch grayling on the line at any given time, but for future generations as well. The average size of the trout varies, but you can be rest assured there is an abundance of trout in the 35-40” class and many that are in excess of 45”. With spin cast or a fly.

We offer 5 and 7 day all inclusive packages with unlimited opportunities to catch all three species that come by their view. Our Fall fishing starts the last week of August and goes through the month of September. Regardless of the weather conditions, we use single barbless hooks for easy releases, and practice CPR (catch, photograph, and release) to make sure that incredible fishery remains strong and sustainable for not only us, but for future generations as well. The average size of the trout varies, but you can be rest assured there is an abundance of trout in the 35-40” class and many that are in excess of 45”. This period of 1-day to 2-day guided hunt had over 50 Manitoba Master Angler Grayling that were tagged out on their caribou hunt had over 50 Manitoba Master Angler Trout (the minimum Master Angler lake trout is 35”).

We’re sure you will enjoy the hospitality of our Ice Fishing packages, as our guests have over 300,000 acres of private waters to fish and explore with the possibility of seeing any other boats other than ours.

Hunting

Central Barren Ground Caribou

Baker Lake Nunavut

We have over 500 square miles of prime Caribou hunting habitat at our disposal in both Manitoba and Nunavut. Hiking from the water's edge to the higher ground of the many ridges enables hunters to "glass" our amounts of stands in search of that trophy caribou.

Whether you prefer to hunt with rifle, bow or black powder, we can put together a world class hunt for you. The rolling landscape is not hard to navigate and combined with the use of boats allows us to take a hunt to an individuals' preference or physical ability.

Although our area is mainly tundra, it still offers excellent patches of cover in terms of small stands of arctic willow along with encropping of rock and natural ridges that aid for a great "spot and stalk" hunt for that monarch Caribou of a lifetime.

We are licensed outfitters in both Manitoba and Nunavut and we can help you plan a trophy caribou hunting trip of a lifetime. We offer our guests the option of choosing between the 5 Star amenities of our full service main hunting lodge in Manitoba, or our extremely comfortable and hunter friendly remote camps located further north above the 60th parallel in Nunavut.

Regardless of where you choose, personal service is still the name of the game, and you'll find that wherever you decide to hunt from. All our camp staff and our guides will go above and beyond to ensure your trip is safe and successful.

We are entering into our 3rd year of successful partnership with Ryan and Dorothy St John of Henik Lake Adventures. HLA is the outfitter of record for all our hunts based in Nunavut.

Although our area is mainly tundra, it still offers excellent patches of cover in terms of small stands of arctic willow along with encropping of rock and natural ridges that aid for a great "spot and stalk" hunt for that monarch Caribou of a lifetime.

Our hunting season starts at the end of August, and goes through to the 4th week of September. Our non-resident hunts are "all inclusive" - this area, we are able to take advantage of the comfortable accommodations not traditionally experienced by Musk Ox hunters. During the spring hunts we use a lodge in Baker Lake to provide private rooms with end of day hot showers and excellent meals for our hunters.

While our Musk Ox hunts are based out of the community of Baker Lake. In springtime, herds of Musk Ox can be found within short travel times of town (usually between 30-45 minutes). Late summer and early fall will find the animals near the lake and along the rivers as they head up for the annual Musk Ox rut.

The animals of this area are the Barren Ground sub species of Musk Ox. These animals are typically larger than their island cousins by about 10-15% and are more tame. On average, well over 80% of the animals taken by our hunters will exceed the Boone & Crockett minimum score. This area is virtually un-hunted for Muskox.

Our licensed hunting guides are also community hunters, meaning the skill and knowledge they have of the the land and animals is second to none. They will do what it takes to ensure you have a safe and successful hunt. Even with our close proximity to the community, these animals are not generally targeted by local hunters. This has led our hunters to enjoy a 100% success rate on all our hunts.

Our fall Musk Ox hunts will be based out of comfortable tent camps, a short bush flight out of the community of Baker Lake. Once in camp, we will access the different Musk Ox area's for fair chase bow hunting opportunities.

We Offer Two Departure Points For Our Summer Fishing Adventures: Winnipeg or Thompson, Manitoba.

For All Fall Hunting & Fishing Packages, Departure Is From Thompson, Manitoba.

Driving
Thompson is a very easy 8 hour drive straight north of Winnipeg MB on Provincial Highway #6. This is a very good, all-season paved highway. There are many services and towns along the route for your convenience. Your vehicle can be safely left at our Air Charter Co. that has staff on-site 24/7.

Commercial Air
Most major airlines connect into Winnipeg’s James Armstrong Richardson International Airport. Direct flights to Winnipeg are available daily from Chicago, Minneapolis and Denver including all other major Canadian cities. Once in Winnipeg, we suggest Calm Air which normally has 3-5 scheduled flights to Thompson and back to Winnipeg daily. Overnighting in Thompson is required prior to the start of your fall fishing or caribou hunting package.
